

# INFUSION KNOWS how to get you **WHERE YOU** want to go.

We deliver a better, faster, more cost efficient product tailored to your company's needs.

## Infusion is Ahead of the Curve.

As a Microsoft Gold Partner, Infusion was among the first to adopt and develop solutions by leveraging Bing Maps Location Intelligence Services (LIS). Our experienced developers and designers understand how to deliver effective and appealing Bing Maps solutions that produce a demonstrated return on investment. We consistently deliver results by listening to our clients and proactively build relevant expertise to generate leading-edge business value for both you and your customers. Infusion offers a full suite of services, including solution design and development, training and mentoring, and hosting and support.

### DEVELOP

Infusion's developers have the experience and ability necessary to identify system requirements and build you the best custom enterprise solutions and applications to meet your specific needs

### DESIGN

Our unique in-house user experience team will not only work with you to build a professional, smart, and user-friendly graphical user interface, but will ensure your application provides a seamless, friendly, and memorable user experience

### VENTURE

Combining an entrepreneurial spirit with the development and design know-how to create results that amaze, Infusion houses industry-leading application developers

## Infusion's Services Deliver the Results You Want.

Infusion's Bing Maps solutions are designed to be resourceful, effective, easy-to-use, and cost-efficient. Infusion designs solutions with one goal in mind: to be the trusted, creative solutions partner that increases our clients' chance of winning every day.

# INFUSION has experience with BING MAPS.

Microsoft turned to Infusion when they announced that they would be migrating all MapPoint and Multimaps clients to Bing Maps. Infusion has delivered and successfully implemented business intelligence and mapping solutions for over 200 of the largest corporations around the world for over six years.

We are ready to guide you through a successful migration. Check out what our Bing Maps migration services can do for you at;

## Testimonial:

"I'm about as technologically savvy as they come, but this one [Infusion's Surface application for Noront] blew even me away."

**Wes Hanson**

-CEO Noront Resources

The end product was a unique, full-blown implementation of Microsoft's BI stack. Infusion worked with our SQL databases, SharePoint, PerformancePoint, Bing Maps and other technologies to create an online information portal. The system has allowed us to meet client demands and is now in use with Tier 1 financial institutions in Canada. Our clients are impressed with the depth and functionality of the system and it has acted as foundation for new product opportunities.

Brookfield Asset Management

**Andrew Miller**

-Director, Analytics Brookfield Residential Property Services
